Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

1. Claims 1,3-6,8,10,11,13 and 14 rejected under 35 U.S.C. 103(a) as being unpatentable over Mueller.

Mueller teaches a strip in a fortune like cookie and strip having printed matter (Fig.3).

Mueller teaches all limitations of these claims except that it does not teach predetermined denomination and suit as indicia. The only difference between applicant's strip and Mueller resides in the meaning and information conveyed by the printed matter. Such differences are considered unpatentable, Ex parte Breslow, 192 USPQ 431. In order to create a variation, it would have been obvious to print predetermined denomination or any other theme related indicia. One of ordinary skill in art at the time the invention was made would have printed suit and denomination on the strip.

Applicant may note that limitations in claims 9 and 10 are rules for playing and do not further add any limitation to the structure of the apparatus claimed.

2. Claims 2,7,9 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mueller in view of Reynolds.

Mueller teaches all limitations of these claims except that it does not teach perforation on strips for separation of cards. Reynolds teaches perforation on strips for card separation. In order to detach cards from the strip, it would have been obvious to use

perforation. One of ordinary skill in art at the time the invention was made would have used perforation for easy separation of cards from the strip.

Response to Arguments

3. Applicant's arguments filed 9/26/02 have been fully considered but they are not persuasive. Mueller fortune cookie game contains a strip determining a chance in a chance game. Applicant's fortune cookie also contains a strip determining a chance in a chance game. The only difference between the two is the printed matter on the strip.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Roberts (2,254,545) teaches a predetermined hand inside concealment.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
